FIRE-RESPONSE

#1 Choice!

**VERSATILE
RELIABLE
DESIGNED to PERFORM**

Rogue Jet Boatworks **FIRE RESPONSE** division focuses on providing fire agencies with the tools they need to get the job done. Our boats developed for fire agencies are engineered to withstand extreme abuse, maximize floor space, and provide unwavering flexibility in the line of duty.

Center Console welded T-Top with or without inflatable collars and Front Helm models with the welded Lodge Top Frame or Enclosed Cabin are the favored choice among FIRE Agencies.

Rogue Jet’s “Single Source Assigned Production Method” for Government Watercraft ensures the quality standards are met, eliminating the short comings commonly found in assembly line produced boats.

Available Lengths 20’-28’
